Speed kills coming down the mountain
Speed kills coming down the street
Speed kills your presence of mind
Speed kills, if you know what i mean

I got to feel woke up inside again
I got to feel less broke, more fixed
Got to feel an' i got outside myself
Got to feel when i touched your lips

The things we do to the people that we love
The way we break if there's something we can't take
Destroy the world that we took so long to make

[chorus]
We expect her gone
For some time
I wish her safe from harm
To find yourself
In a foreign land
Another refugee
Outside a refugee

How's it feel she's comin' up roses
How's it feel she's comin' up sweet
How's it feel it's all in spite of you
How's it feel when she's out of your reach

The things we do to the people that we love
The way we break if there's something in the way
Destroy the world that we took so long to make

[chorus]

What happened to you
What happened to you
(what happened to you)
What happened to you
(what happened to you)
What happened to you

The things we do to the people that we love
The things we do to the people that we
That we love
