All the people every where, everybody wants to hear
my playboy philosophy
Cause I look like a star when I'm smokin my cigar
They wanna be just like me

I know in their hearts they wish and dream
That they could be like me
But if they want to know the truth, it's true

I'm The Natural Playboy of Town
and I am blowing every mind
cause I'm one of a kind
I'm the coolest dancer around
The lights are shining down on me
so everyone can see
The Natural Playboy

I'm The Natural Playboy of Town
and I am blowing every mind
cause I'm one of a kind
I'm the coolest dancer around
The lights are shining down on me
so everyone can see
The Natural Playboy
