Verse One: Belo

Since I'm 'Lo let me flex this
If there's somethin on yo' mind recline and check this
Song smooth not reckless
Swing it high and ride from 'Side to Texas
Give the game up since I came up
Blew my name up, check out the rhythm
make them all wanna flame up
Strike a match to a lighter
A message to a young ridah, on the sight of
pimp poetry I make you lighter than a feather in your
dime hat
Bitchin to skins, saw that
I can tell you where the mob at
At the click, summer sunnin where the broads at
Diggin all that, smokin weed until they come and we
can fall back
Shootin back for the small scratch
Trey-Fo' what you call that?
Pull up my drawers Girbauds and doze to pros got
called
by the po-po, save it for the phone doe
Bond DeVille, flossin off behind the wheel it's appeal
Took a chill, but I still had to pose
And if I pause, it's because I left my car and the phone

Chorus: Johnny P

Can you smoke and ride
With a playa, like me, and you, oh babe
Can you smoke and ride
With a playa, like me, and you

Verse Two: AK-47

See uhh, laid back I'ma let the proper game at two rats
In the roll like two sacks
Dub essential when my homey came up
On the same drug for layin up they holla who that
Double check, just a couple hoes

Tryin to see where my head was at
On some problem shit
Wish to be up within the party shit
With the blunts and Bacardi shit
With the way she was dressed she might as well
had nuttin on your body bitch
Hit the red on my side cause you know how a party get
Nuttin but the proper cheese
To squeeze a little on and scoot on to proper chick
But really doe, once a man advance
and bend blocks smoke the last of these
Pimp cats done CC's
Heavy G's ninety-six flippin clips bout naturally
Bags seized through Darnell
Heavy sacks and drop-tops
Now look on your map and spot
where we, R-I-D, E, and smoke

Chorus

Verse Three: Belo

I, made my money on the DL
Closed shop in the Pontiac we bail
To the mall to ball we're all pall
Cause a brother gonna floss in front of these females
To the retail
Five double oh period double oh these suits
The Girbaud with the boots
Then I scoop, up the loot
Paid the cash and dashed past the lab or the members
of
Put my foot in motion, exits the sto' with my brand new
gear
Spring game in her ear
Tell her Miss to please me and dance till it'll make me
hear
Get her dizzy off the Stanberg
Girlie had to run for months to pump up but I'ma
handle her
like a man, I'ma stand if I fall
And when I fall, then the city better make the call
Left the mall, by the minutes of clothes
I suppose I get dressed to impress these hoes
Getty shoe fresh Guess from head to toe
Only wearin in the do' what the playas know
Bet y'all wanna see me niggaz wanna be me
Never will they pimp free, pimp costs
And I get lost on the slide for the Ave gettin high while
we ride

Chorus
