This is a national security alert
Ground Music, Flip Mode, Aftermath, here we go

Back with the most venomous rap
It be the godfather of the club banger let me hear you
clap
You can applause and from the very beginnin'
You can give me a standin' ovation while I'm bangin'
your face in

With another banger I call it the cliffhanger
Watch me mangle and strangle this whole rap shit
(Come on)
You could see the way I make 'em mad sick
From down bottom the way I got 'em give me my cash
quick
(Come on)

Log on you better grab onto somethin'
Because I'm 'bout to shake shit again and make 'em
black bitch
(Come on)
Now you hear the shots ring off from bitches takin'
everything off
Each other got 'em whylin' runnin' for cover

The King Kong, Big Foot gully with a scully
Bully of rap still ugly with the money runnin' the trap
Now they givin' me dap, as far as I'm concerned in this
mu'fucker
Like how I got 'em now they ready to snap

So don't touch me nigga
(You might burn yourself)
Don't touch me nigga
(You might burn yourself)

It's gettin' hot in this bitch
(So throw the water on 'em)
We got 'em hot in this bitch
(So throw the water on 'em)

We got 'em hot in this bitch
(So throw the water on 'em)
We got 'em hot in this bitch
(So throw the water on 'em)
Here we go

Now you see the alcohol spillin' and we got 'em
Hands in the ceilin', you know we only come to rattle
the bulidin'
And break it on down just a little once again
Knowin' we holdin' the bank so let me keep the dice
rollin'
And keep it traditional the way I keep my money fallin'

While you slackin' on yo' mackin', Duke, we always
keep it goin'
Right to the left, do it to death, now watch me
Come through with a chisel that make the game sizzle
And I, pull out the skillet, prepare for the cookin'

How I'm whylin' niggas wonderin' when I'm gonna bring
the hook in
Thugs ice grillin' every time they get to lookin'
Got 'em whylin' overseas all the way back to go
Brooklyn
Now they ready to spaz 'cause we bring the best to
them

Shit that shut it down on the regular
That's with the fly 80s' nigga that was whippin' in a
Cressida
Fresher than, most of these niggas, killin' the rest of
the
Fellas that was thinkin' that they as rushin' in and
bustin' in
But the way we was doin', we was musclin' their hustlin'

So don't touch me nigga
(You might burn yourself)
Don't touch me nigga
(You might burn yourself)

It's gettin' hot in this bitch
(So throw the water on 'em)
We got 'em hot in this bitch
(So throw the water on 'em)
We got 'em hot in this bitch
(So throw the water on 'em)
We got 'em hot in this bitch
(So throw the water on 'em)
Here we go

You don't really want it my dude
I'm sayin' most my niggas is rude
And when we come we eat a nigga food
Back to the fact in the matter at hand
For me to come in control this whole shit, was only part
of the plan

The other part of the plan is for you to understand
That nothin' could fuck with the kid, let me say it again
The Broad Back B, Busta Bus back to put out the trash
And just for the record, we got it on smash, now

How the fuck they even got the audacity
The fire marshall come and try to talk about capacity
Every time I'm in the spot, I hope you know it has to be
Extremely packed to shut it down, you'll probably cause
a tragedy
Don't you know that when I'm in the place I change the
mood again

I be whylin' wit raunchy bitches and a bunch of
hooligans
Now don't get it fucked up just because I flaunt it
Niggas think that they can test me, bring it if you really
want it
See I be the type to always beat you to the punch faster
I keep a smile on my face, but carry the Bushmaster

So don't touch me nigga
(You might burn yourself)
Don't touch me nigga
(You might burn yourself)

It's gettin' hot in this bitch
(So throw the water on 'em)
We got 'em hot in this bitch
(So throw the water on 'em)

We got 'em hot in this bitch
(So throw the water on 'em)
We got 'em hot in this bitch
(So throw the water on 'em)
Keep it goin'

You already know I said it word to mother
Shit is so hot you niggas think it's cold in the summer
Shh, calm the noise down let's get a little quiet
'Cause the neighbors call the police they know we
cause riots

And they know that we'll have them thinkin' they
dancin' with the devil
When they play the music turn the volume to the
highest level
You got it right
Let's keep the bomb goin' like we lit a stick of dynamite

Bow you know you need to follow whenever you hear
the God spit
(Aww shit)
You see me nigga back in the cockpit
Out to gettin' this money I give you all a stock tip
Perspire by a nigga till you see the sweat drop drip

So don't touch me nigga
(You might burn yourself)
Don't touch me nigga
(You might burn yourself)

It's gettin' hot in this bitch
(So throw the water on 'em)
We got 'em hot in this bitch
(So throw the water on 'em)

We got 'em hot in this bitch
(So throw the water on 'em)
We got 'em hot in this bitch
(So throw the water on 'em)
Here we go
