I, I never thought that I could find
(Excuse me miss)
Someone, so special
(Can I have a word wit'chu, baby)

Miss, can I get a second to speak and quietly mention
That I am so into who you are, can I get your attention
My observations of you creates conversations for you
And if you got a little time, I got the patience for you

Okay? Good, you givin' me the time to talk?
While I figure it out and sort what I'm tryin' to say, let's
walk
Just tryin' to keep it gutter, respectfully I won't stutter
Don't you agree, we look better when we walk with each
other?

I've seen you many times, yes, I've encountered many
dimes
I'm feelin' somethin' special with us, it's just one of the
many signs
I think that we have to look forward to our go-through
Any war with you regardless what it is I'm tryin' to score
with you

Sometimes I think and wonder especially through rain
and thunder
If I'd ever find the one to ride when I'm on top or under
Until we reach the end, ma, with love as I be your friend
Oh, here you can take my number, I hope we can speak
again

No matter how, mister, no doubt I'll die wit'cha
Until the end of life, lay down on the ground wit'cha
I'll give my life to you, I hope it all comes true
Ready to start for you, I give all my heart to you
And when together I hope we never fall apart you know
Now that it feels so good, our thoughts are understood

I'd like to learn from ya but I'm 'bout to turn from ya
It's been about a week and I ain't even heard from ya
Is it somethin' at all or did I just bump in and fall

And even though you did I see how you was reluctant to call

But it's nothin' to crawl before we walk, listen
And it's nothin to stall before we talk, look
To tell the truth I'm happy I found you and that I can be around you
And thus I'm diggin' you, I ain't just tryin' to pound you

I'm only tryin' to crown you and wife you and wedding gown you
Regardless what I'm with, shorty seem like she always down to
Just spend a little time and then click, you know that kind of chemistry
The recipe to then sip and a little bit of wine

Mami I like your kind that light the fireworks and bombs up
The type of chick I wanna talk about when I call my moms up
Until the love is empty I credit the one who sent me
The most beautifulest woman and she ridin' with me

I'll do it all wit'cha, go through any door wit'cha
It doesn't matter I will go against the law wit'cha
Just know you live through me, your love is all I need
If you ain't know you make me, no one's ever shown you, baby
To tell the truth [Incomprehensible] you've got me goin' crazy
Your love so real to me and that's all that I, can see

This is a thing I wanna feel forever and I ain't goin' nowhere
'Cause you mean so much to me
No matter how my people try to doubt ya
I know the truth about ya, it doesn't matter to me

Baby, I love you and I always told ya, I'm always here to hold ya
'Cause you do so much for me
No matter how they try they can't deceive us
Nothin' can come between us, 'cause you mean so much to me

Listen; trust me and I will trust you, I ain't into tryin to fuss boo
Deeper than any lust, I'm only tryin' to mindfuck you
That's probably why and maybe I can nickname you my, baby

Now that you made me a man you're officially now my
lady

Despite the stormy weather I cherish your love forever
And nourish everything we have till we grow old
together
I'll never trick you, mislead or try to be shaky wit'chu
I only wanna make all the rest of my babies wit'chu

No matter how, mister, no doubt I'll die wit'cha
Until the end of life, lay down on the ground wit'cha
I'll give my life to you, I hope it all comes true
Ready to start for you, I give all my heart to you
And when together I hope we never fall apart you know
Now that it feels so good, our thoughts are understood

I'll do it all wit'cha, go through any door wit'cha
It doesn't matter I will go against the law wit'cha
Just know you live through me, your love is all I need
If you ain't know you make me, no one's ever shown
you, baby
To tell the truth [Incomprehensible] you've got me goin'
crazy
Your love so real to me and that's all that I, can see
