See every time we do it y'all know that we livin' proper
Y'all niggas know when we can't be fucked and
building up we sorry
In case you didn't know, we ain't that thing, you missed
it (face the sound boy)
Make sure you never second guess it
This is a sound boy, Marion killin' I'm missin'
If you ain't Newman you should listen to me
Where ladies down blind, beautiful funeral
We said "can't hold the torch? My nigga, leave it with
me"
I shot the drawer cracked, last night we blew a ounce
Mattress financial, opened up a few accounts
Hold 'em up, we bumpin' yay
No one had this much power as bumpy J
Lennox ave, all shucky ducky
Seen paid in full now everybody do the doggie
When I'm doin' the doggie, I'm talkin' doggie line
Pistol whippin' nigga, why you makin' bucky eyes?
Had the buggy eye, it was hard to see it
Now the headlights shacky like the car Korean
Play your real number, put you in the mausoleum
When I ball you fall, you can't guard it damn
Listen sunshine, I be duckin' one time
I was first rockin' 30 chains in one time
Nowadays I might just rock 2 or 3
Louie V, Gucci T, na that ain't used to me
See every time we do it y'all know that we livin' proper
Y'all niggas know when we can't be fucked and
building up we sorry
In case you didn't know, we ain't that thing, you missed
it (face the sound boy)
Make sure you never second guess it
This is a sound boy, Marion killin' I'm missin'
If you ain't Newman you should listen to me
Where ladies down blind, beautiful funeral
We said "can't hold the torch? My nigga, leave it with
me"
If you take him off the leash, I'll promise watch and see
what happen
When I spit I'll tear the flesh off humans bitch (unleash

the Kraken)
Though I suggest you great the captain
Where I'm from I keep the walls of fame that pertrude
and be breathing from a gun saw
Heartless when it comes to bread despite I lost the
cash
Bums with signatures initials drop the crush the max
I'm gluttin' when it comes to stuntin', boy I love the
flash
Try on eat 'em blast tables, diamonds cut the glass
Ha shux, that's why I cuff the stash
The spend money to finish garbage, niggas dump the
trash
From bread to cars, we them liquor niggas, we so high
So sickening with the shit I spit, boka ecoli
Peek how I keep those ties and run it for another year
See how I leak your eyes and get your shit to shed a
tear for
Tearfull in case you don't know who you fuckin' with
One world government
See every time we do it y'all know that we livin' proper
Y'all niggas know when we can't be fucked and
building up we sorry
In case you didn't know, we ain't that thing, you missed
it (face the sound boy)
Make sure you never second guess it
This is a sound boy, Marion killin' I'm missin'
If you ain't Newman you should listen to me
Where ladies down blind, beautiful funeral
We said "can't hold the torch? My nigga, leave it with
me"
