(Begins In Speaking Voice)

You know
Everybody's talking bout
About how different I am
I guess they can notice
the changes
The way I walk
They way I talk
Believe it or not baby
I can feel it here inside of me

(Singing begins)

You turn my whole world, around
Yes Darling, it's true love I've found

Never, have I ever Met a girl like you-
So warm, So tender - Completely New
You changed me, Rearranged Me With new meaning in
my life
No more sadness or madness No more lonely nights
It's Over girl It's Over my dear
Cause you're here ooohh, you're here

You turn my whole world, around
Ooh baby
It's True Love I have found
You turn my whole world, around
And darling its True Love I've found

I'm giving and I'm living My Life for you
Whenever, Whatever You want I'll doooo
Cause I'm crazy, bout you baby You've fulfilled my life
No more sadness or madness No more lonely nights
It's Over girl It's Over my dear
Cause you're here ooohh, oohh, you're here

You turn my whole world, around
Ooh baby
It's True Love I've found
You turn my whole world, Upside Down
Ooh baby

It's True Love I've found

(Speaking)

All it took. Baby you were ALL that it Took
To take a man from a world that was completely all
blue
To turn me around and Plant my feet on solid ground

(Singing begins again)

You turn my world around
Ooh baby
It's True Love I've found

You turn my whole world, around
It's True Love I've found

You turn my world around

As the music closes and fades
Well well well well

My my my my
Ooh ooh ohh
My my jmy

You you you
Well well well well

my whole world around
