after I said that I thought it would be better
to just stop talking
it couldn't be over but it couldn't last
it's been several years since I've even been asked
it must have sent my head off the deep end
I know some things
but nothing has left me so urgently
hoping and now
it couldn't be over but it couldn't last and
it's been several years since I've even been asked
no one wants to think of electricity that way
I wanna think that everything electrical will stay
