"Tell The Others"

maybe a shaming
when you're down you can't forget
your friends say the same thing
impetuous and private
when are you down when are you free
when are you free
tell the others they've been missing
all that's gone before
all the others don't know her
or they don't care anymore

you know you can't be in 2 places at 1 time
another obstinate asshole
another free riding miserly
for her for her
god how I adore her
tell the others they've been missing
all that's gone before
all the others don't know her
or they don't care anymore
