Sweet and low [x2]

You put your fingers into my mouth
Tastes good but look what's coming out
This time we'll see what it's all about
Its not like u knew

Sweet and low

Secretly purging your denial
Come lets go for awhile
And see this time what's suppose to be
Its not like u knew
Sweet and low [x2]

This is your life [x6]

To ordinary you've got it going
You've got it going on
Don't say your boring say it ain't so
Say it ain't so
You never have to make it show
You've got to let it show
This life is scary I oughta know
