If theres anybody dat do it big in the hotel
Its me see I practically live in the hotel

So I can afford to spend 10 grand on room service a
week

I got the top chef makin my lunch
And the tip the waiter get prolly more than he make in a
month

I got 4 freaks in my suite all getting naked at once
While their girlfriends wait in the front
I got plenty cigars and plenty bottles and they not from

my balcony
