You're moving fast  
Like an razor knife  
It's just the past  
That tells goodbye

I'm in a bottle  
With cookie bites  
Sweet like sugar  
Up all nights

Time to wake up, cause there's no time to waste  
Take everything this is going to be great

Wake up wendy, up get out  
To the street jump up and shout  
You have every eye on you  
Just be yourself, cause this is the truth

Run run wendy, fast move on  
He's behind you with a gun  
You'll kill him first just turn around  
He'll see your face and falling down

SOLO

Time to wake up, cause there's no time to waste  
Take everything this is going to be great

Little Wendy she felled down  
Because there was an big bad clown  
He punched her down into her dreams  
I don't know what this mess means

Lay down Wendy time to sleep  
You have run on this whole week  
Time to get lost and move on  
No one will care without this song
