"My Mask of Iron"

I deeply wish I'd
Never been brought to this world
It's all very clear now
I wasn't made for this time

'Cause I know I'm not ready
No I'm not prepared
It now has to end like this
My mask of iron is heavy and thick
A fatal mistake, I'm sorry I think I slipped

Eight in the morning
It doesn't get much worse than this
Deep down I sink now
Down to an endless abyss

I know my days are numbered
Like names on a list
I now have to walk alone
I'm trapped in my own skin and try hard to shout:
"Can somebody please help me I can't get out?"
