In a cheap hotel in Rome
You are killing time
I wonder what you're thinking of
When I'm not by your side

In a dream I visit you
And try to talk you down
But you are naked, you are wild
And you are satisfied

'Cause you are the centre of the world
And you are above the universe
Whenever you want to win it's a million to one
A light in a sunbeam

On a wire, on a line
You are getting by
You watch the city from above
The morning suits you fine

'Cause you are the centre of the world
And you are above the universe
Whenever you want to win it's a million to one
A light in a sunbeam

In a cheap hotel in Rome
You are killing time
I wonder what you're thinking of
When I'm not by your side

In a dream I visit you
And try to talk you down
But you are naked, you are wild
And you are satisfied

'Cause you are the centre of the world
And you are above the universe
Whenever you want to win it's a million to one
A light in a sunbeam
