(Roger McGuinn)

Happiness hit me on the first day that we met
She was sittin' in my kitchen with a face I can't forget
She was lookin' in my direction and she calling with her
eyes
I was trying to do an interview and telling them all lies
Last year in the summer with a tiffany lamp over her
head
They were ask me what I thought about the 50's
rock'n'roll
Then they got into a limousine and fell into a hole
I moved into the kitchen and I quickly fell in love
The warden came along and asked me what I was
thinking of
Last year in the summer with a tiffany lamp over her
head
Well, I grabbed her by the hand and with a few things I
could

The warden said your leaving well, you've better leave
for good
I made it to Tasmania to buy a devil dog
Well, we met a handsome prince who turned into a frog
Last year in the summer with a tiffany lamp over her
head
Instrumental (Electric Guitar)
Now we're living out in Malibu the ocean by our side
Laying in the sunshine drifting with the tide
Well, happiness is hit me on the first day that we met
She was sittin' in my kitchen and a face I can't forget
Last year in the summer with a tiffany lamp over her
head
Over her head
