

Byrds "Time Between"

Visit "[Time Between](#)" on MotoLyrics.com

Don't say you love me
Don't say you care
You're so far away
Telephone communication
Only a three minute elation
When I hear your voice

Chorus:

Through love and trust it's gonna work out fine
The only pain I feel is al this time between
You and me, you and me

All the days have turned to years
Only emphasize my fears
Since you said goodbye
I can hear your voice at night
I can read the words you write
It's only love

Repeat Chorus

Now don't say you love me
Don't say you care
You're so far away
I can hear your voice at night
I can read the words you write
It's only love

Repeat Chorus 2x
