Hello hello hello  
Oh yeah  
Common where's the party,  
Hello hello hello  
Say what?  
Get in the feeling were going to start here

We are drunker then the others  
It's me my crew with all my brothers  
- - Always to loud, always around, making others  
sounds  
If there's a party were will be there, Rushing with liquor  
and a lot of beer  
- - Turn that music off turn this music on we wanna hit  
this song  
Take you glace (drink it up) everyone (like it or not)  
dance all night (and don't you stop)  
Cause we are here to get this party started  
Comm'on it is a party My friend you are a lie  
And you now that a party ain't a party have to be so  
loud

Hello hello hello  
Oh yeah  
Common where's the party,  
Hello hello hello  
Say what?  
Get in the feeling were going to start here [2x]

We are drunker then the others  
It's me my crew with all my brothers  
- - Party all out scream out and shout and there is no  
doubt  
That we continued rock this party no way that we my  
friend will be boring  
- - Connected to the end of the time we spend you're  
my fucking friend  
Take you glace (you better drink it up! ) everyone  
(comm'on! ) dance all night (and don't you stop! )  
Cause we are here to get this party started  
Comm'on it is a party My friend you are a lie

And you now that a party ain't a party have to be so  
loud

Hello hello hello  
Oh yeah  
Common where's the party,  
Hello hello hello  
Say what?  
Get in the feeling were going to start here[2x]
