Hey ho there's an open casting call 4 heroes  
and all that showed up was nero  
and it's all blurry but somehow he was hired

lay low cause he's gone and pissed himself laughing  
pissed in the wind and said it was raning  
said don't worry it'll put out the fire

if i do say so there's a lotta more story 2 unfold  
cuz it'll twist and it'll turn till it's been told  
that the truth is it's own supplies

i don't wanna talk about what was  
can we please not talk about what is  
y should we talk about what should b  
when we could just talk about what could b

hey ho somewhere a dreamer ain't so silly after all  
sees a crack where others c only wall

yeah all my heroes are weirdos
