POWER STATION

Hiding there
In the grass
On your own
Chaotic soul singing back
You're so alone

Just a boy
Home from school
You got a gun
It took so long but now you're gonna break the rules
Late for class
They're runnin' past
They don't know
They'll never know this day's the last
That they'll be cool

Hear the bell
It's time to yell
Hit the deck baby
Save yourself
You'll wish u missed this day of school....

From a bag
You break 'em loose
You break the truce
They underestimated you

In the halls
They're falling down
It's quite a sound
You like the way they beg and
Scream outloud
