Wash it out  
I'll moan it to you  
Push it out  
I'll cut into your  
Solitude  
So don't hesitate  
To saturate exaggerate it all  
We don't fuck we copulate  
If that's nicer to hear  
We don't borrow we hit and run  
We treat mean for the reputation's sake  
Our silence can bring up a storm  
Everything feathered took off  
Some place quiet and still like as if  
There's a difference where you're at  
You're a part of it  
You're not to be sold apart from it  
It's our own record  
So why are we so ashamed of it  
Hold it's already too far  
turns just mix everything up  
halt ready to depart  
stop tearing skies apart  
plain and deeply regretted  
slapped deep into the soul  
slayed and digitally worshipped  
halt hold on to the ground  
Cause as soon as you'll hear  
the break fading it will settle down  
Sucking out all the emptiness leaving it  
all for the science to make new names up  
everything I walk away from comes back to bring panic  
and drain  
out the pupils and flange all the sounds that have to be  
clear  
in order to forge calm which will be buried in chambers  
on the wrong sides of today  
cries speak no language  
but do inform  
They tell the history  
Of what went wrong
