Baby come over tonight  
I promise baby girl  
I'll make it right  
Baby come over tonight  
I want to be close to you come over  
Come over tonight  
You're on my heart, and you're on my mind  
The way you make me feel I just can't describe  
I, I just can't help, but fall in love  
You're the only one that I'm thinking of  
All I want is you  
You're all I need  
To give my heart  
To give my all  
I really want to see you tonight  
Baby come over  
Baby come over tonight  
I promise baby girl I'll make it right  
Baby come over tonight  
I want to be close to you  
Come over, come over tonight  
Let's take our time, sit by candlelight  
Let the stars, the moon light up at night  
I see love shining in your eyes  
I want to make sweet love baby  
Let me make you mine  
All I want is you  
You're all I need to give my heart  
To give my all  
I really want to see you tonight  
Baby come over  
Baby come over tonight  
I promise baby girl  
I'll make it right  
Baby come over tonight  
I want to be close to you  
Come over come over tonight

(sexy raul part)

You're all I need my baby  
And girl I don't mean maybe

Please come over tonight  
Let me love ya baby, let me love ya baby  
I got a thing for you girl  
Let me make love to you girl  
Come on over tonight  
Let me do ya right let me do ya right

(sexy david part)  
I'll bring the wine if you have the time  
Baby girl you look so fine  
Tonight's the night you will see  
All the things that we can be  
Baby come over tonight  
I promise baby girl I'll make it right  
Baby come over tonight  
I want to be close to you  
Come over come over tonight  
Baby come over tonight  
Let me love you girl  
Let me rock your world  
I promise baby girl  
I'll make it right  
Baby come over tonight baby come over, baby come

Come over come over tonight  
Baby come over tonight
