Baby, everyday I pray for someone like you.
And today my prayers came true.
Come on baby.
Girl just let me say that thinking about you is how I start
my day..
Oh girl I love your style.
Baby just one look at you drives me wild.
And I cherish the moment that we're together 'cause
you're my everything.
We've got the love of all times, of all times.
Yes I prayed for someone just like you.
We've got the love of all times, of all times.
I'm so glad someone like you loves me to.
We've got the love of all times.
Girl it sets me free.
Don't even explain why you're so good to me.
No there's nothing they could do,
It wouldn't be enough, it wouldn't change my love for
you. to come between us.
It may sound crazy, but your love saves me.
You're my everything.
We've got the love of all times, of all times.
Yes I prayed for someone just like you.
We've got the love of all times, of all times.
I'm so glad someone like you loves me to.
We've got the love of all times.
I know you hurt before, but you wont hurt no more.
I swear I wont let you down.
I know this love is forever.
Shows in everything you do.
I'll do anything you want me to.
