Our world is hopeless, and we have no where to go
Our children are hungry, and we can't feed the poor
Were really hopeless, spread some love before
And love that and hold in
Lord I really miss my friends, Lord please help us

Now as I walk through the streets I see many people
under pressure
'Cause uh, life ain't easy and you know this world gon'
test ya
My daddy told me C one day you gon' be faced with
this problem
And you and only you must find the knowledge to solve
it

My momma said Lord gives us tests to measure our
faith
And if you really believe in God, then you shall smile on
Judgment Day
'Cause at the crossroads ain't no hunger, and every
man the same color
And when it's my time to open 'em gates 'cause uh

I really miss my brother and you the only man that can
judge me
So please guide me to the right direction
And why can't I put this gun up and use my Bible for
protection
And it's an everyday struggle, don't expect nothing to
change in a week
But Lord help us in this hopeless world
'Cause I don't wanna die in the streets

Our world is hopeless, and we have no where to go
Our children are hungry, and we can't feed the poor
Were really hopeless, spread some love before
And love that and hold in
Lord I really miss my friends, Lord please help us

Now I done been stop shedding tears, now my eyes
bleed when they cry
And I never understand why, everybody gotta die

And everything that's born gotta go, and I really think
that's a shame
And I'm so tired of reminiscin', trying to put a face to a
name

You put my grandfather in my life, and then you took
him away
Yeah, big daddy used to drink but uh, he gave me a
place to stay
And many kids starving overseas, and even right here
on my block
My auntie told me in the year 2000 that the world was
gon' stop

Now I don't wanna question you Lord, but is violence
really the answer
And if not, then how come so many innocent people
diein' of the cancer
Now revolutions say the world gon' end, but the world
ain't over yet
And it's up to us to move on, but in our hearts we'll
never forget

Our world is hopeless, and we have no where to go
Our children are hungry, and we can't feed the poor
Were really hopeless, spread some love before
And love that and hold in
Lord I really miss my friends, Lord please help us

They say God created man, and put man on this earth
And then came woman from there, and from there,
there was birth
And ever since Eve gave Adam the apple, the Bible's
like the spell
And introduced mankind, not only to Heaven, but a
place called Hell

Even though we try to repent, it's too many gangstas
taking us down
My cousin tried to leave the streets, and now he laying
in the ground
And Jesus died for our sins, but I wonder if He wasted
his time
'Cause it's 1999, and this world is still blind

Now I don't wanna lose my freedom
'Cause I'm this close to making it big
Now I don't know if I'm a make a difference
But I just wanna be there for my kids

Now that's a hopeless situation

When will it end, I don't know
But Lord help 'cause your children
Ain't got no where else to go

Our world is hopeless, and we have no where to go
Our children are hungry, and we can't feed the poor
Were really hopeless, spread some love before
And love that and hold in
Lord I really miss my friends, Lord please help us

Our world is hopeless, and we have no where to go
Our children are hungry, and we can't feed the poor
Were really hopeless, spread some love before
And love that and hold in
Lord I really miss my friends, Lord please help us

Our world is hopeless, and we have no where to go
Our children are hungry, and we can't feed the poor
Were really hopeless, spread some love before
And love that and hold in
Lord I really miss my friends, Lord please help us
