Your sweet love
Your sweet love
Your sweet love
You're so sweet
Your sweet love
Your sweet love
Your sweet love
Your sweet love
Your sweet love
You're so sweet
I feel your body's starting to overheat

Always you that love to find a way
To bring you another sunny day
So many times your heart was alone
Please let them show that you are deep in my soul
Come join a party all night long
Just let your body follow every beat
Get down and dances to feel the flow
So feel to better better just feel the beat

I'm feeling your sweet love
I'm feeling
Let's dancin with you
I'm feeling your sweet love
I feel your body's starting to overheat

I'm feeling your sweet love
I'm feeling
Let's dancin with you
I'm feeling your sweet love
I feel your body's starting to overheat

Can you feel it (3X)
Can you feel it... I'm feeling

Always you that love to find a way
To bring you another sunny day
So many times your heart was alone
Please let them show that you are deep in my soul
Come join a party all night long
Just let your body follow every beat

Get down and dances to feel the flow
So feel to better better just feel the beat

I'm feeling your sweet love
I'm feeling
Let's dancin with you
I'm feeling your sweet love
I feel your body's starting to overheat

I'm feeling your sweet love
I'm feeling
Let's dancin with you
I'm feeling your sweet love
I feel your body's starting to overheat

Can you feel it too
Can you feel it... I'm feeling
Can you feel it too
You're sweet... so sweet
Can you feel it too
Can you feel it... I'm feeling
Can you feel it too
You're sweet... so sweet
