Listen to my story.
I saw a falling star.
And I made a wish upon the tiny spark, then.
My heart belongs to you forever, forever more.
I hope my wish can be heard to the sky?

Hey, look at the night sky.
Do you know why that glitters?
Our minds become a star with one accord.
Glitter in the night sky. And like your mind, baby.
And it is shining somewhere tonight.

With you all the time? with you forever.
