Iâ€™m breaking down. I am screaming out
My time is running out. What do I do now?
Oh give up? Or stand up?
I donâ€™t know. I wanna break the spell now

Iâ€™m drowning now. I am crying out
My time is running out
I need someone to save me now.
Somewhere, Lady luck will smile at me. Yeah

Iâ€™m searching where you are
Oh shining down on me from where you are
Iâ€™ll always be right there, baby. Always be right there,
baby
Oh please touch my body and my face
Iâ€™m searching where you are
Can you see what I need? Itâ€™s where you are
Iâ€™ll be always be right there, baby. Always be right
there, baby
You know? When I can be where you are, only then I will
shine bright

Iâ€™m crumbling down. Iâ€™m falling apart
My time is running out. What do I do now?
Oh give up? Or stand up?
I donâ€™t know. I wanna break the spell now

I canâ€™t breathe now. Iâ€™m losing myself
My time is running out
I need someone to save me now
Somewhere Lady luck will smile at me. Yeah

Iâ€™m searching where you are
Oh shining down on me from where you are
Iâ€™ll always be right there, baby. Always be right there,
baby
Oh please touch my body and my face
Iâ€™m searching where you are
Can you see what I need? Itâ€™s where you are
Iâ€™ll be always be right there, baby. Always be right
there, baby

You know? When I can be where you are, only then I will
shine bright

I wanna be like a bird
I wanna fly to the sky whenever, oh wherever
I will search where you are right now
And I will fly high

Iâ'm searching where you are
Oh shining down on me from where you are
Iâ'll always be right there, baby. Always be right there,
baby
Oh please touch my body and my face
Iâ'm searching where you are
Can you see what I need? Itâ's where you are
Iâ'll be always be right there, baby. Always be right
there, baby
You know? When I can be where you are, only then I will
shine bright
