Bit lips... face, breathing in snow flakes
Burned thoughts...
Bite scar... struggling to pain...
Long nights, it's too cold outside
The angel fly, fly, fly, fly, fly
The angel fly, fly, fly, fly, fly,
Fly, angels to fly
Oh angels to die

Look, where I'm from, you don't see angels
Mind just... you could get a brain fool
Most tour are gonna stay... to get away
It's like castration, takes balls
No word from gabriel, nah
Could sip my...
Or get greedy trying to take your own crown
All... but... mean
If the fun's still available, make alliances
Start taking cools...
Just know that the roads in the game are...
... but you dodge them
... don't wanna engage them more
But that ain't what they used to say before
Now you're on your chase wanna change your course
But they are at your yard, straight door to door
... outside, now I seen it happen so many times, you get
me
The angel fly,
I know the last stars glamorous in that part
Angels die

Where I'm from you don't see angels
Or you do, and the road takes them
And places them in a messed up situation
And kids are amazing but
Now when you got 8 of them
Struggling to provide plates for them
Social end up taking them
Now you can't take the stress
Beautiful girls raised in the ends
Abusive background, caught up in a... crowd
Picked up a... down

In the zones, happens to so many of them
Beautiful... could have make millions
... fuck you know
I... see them at every event
And this shit's so sad man
If you go outside, the angels fly
Imagine that, never ending cycle
She's just under the other half
And goes... for a couple grams
She don't wanna go outside tonight
Cause in the... she'll fly to the mother land
So off to another man
If you go outside, the angels fly
