It's hard to see it through the pain
When you're trapped in this world of survival
I know my heart will make it through the rain
Whenever the sky falls.

Look, we don't need no help or hand-outs
paper tin, stack pounds
Try and hate, violate, *boof* you're a man down!
Quit fast, pass the mask them mans are gassed, wow
why you got snot beef, that's your girlfriend, fat cow!
North weezy, shanktown
Usain man ran down
There's a mic, and now
whipped Batmobile, blacked out
and if they're getting chased and the *?* get's caught,
they should have span round
greatest tattoo'd tear, sad clown - *?*

It's hard to see it through the pain
When you're trapped in this world of survival
I know my heart will make it through the rain
Whenever the sky falls.

Ok look, go hard or go home (yes)
get dough or go broke (haha)
if you're not talking money, dont holla me like i was on
vodafone
them man are sweet, toblerone
if you cant make it honeslty, keep it movin'! (hustle)
get caught, lie (ha) pinocchio!
If we're not friends, we're enemies
you'll get bun, sesame
the rest is for the rest,
i'll get mine while you're getting sleep
rags to riches after wealth
im a trapstar, ask your gal
life's a buffet, help yourself
got a plan, hard to fail

It's hard to see it through the pain
When you're trapped in this world of survival

I know my heart will make it through the rain
Whenever the sky falls.

It's hard to see it through the pain
When you're trapped in this world of survival
I know my heart will make it through the rain
Whenever the sky falls.

(Are you listening?)
Look, are you listening? (yes)
not predator you're prey
not one of us, you're a victim
don't roll with enough mates
one or two man and we'll rinse it
i ain't talking plates
you better keep your distance
this year i want cake
call man Mr.Kipling
starving, hungry, after, munchies
escape in slums G
bull den bounce the country
grandpa's called, many stamped
they fought one, 20 back
Im a, survivor
so when the sky falls im ready fam!

It's hard to see it through the pain
When you're trapped in this world of survival
I know my heart will make it through the rain
Whenever the sky falls.

It's hard to see it through the pain
When you're trapped in this world of survival
I know my heart will make it through the rain
Whenever the sky falls.
