I can still recall the moment I knew we'd be more than  
friends  
And I'm so proud to say that I was right.  
I hope this feeling never ends, the way I feel right now  
With you beside me on this perfect night

There've been times when I didn't know if I could be  
good enough  
To be a man that you can lean on everyday  
Then all at once, I realize the best that I can do  
Is love you more than any words can say

It's hard to find a way to tell you how much it means to  
me  
That you choose to spend your whole life by my side  
All my thoughts and ideas come out sounding so  
cliché  
I'm just a lucky man to have you as my bride

This is a moment that I've been waiting for to find this  
perfect love  
Since we met, for me, there is no other girl  
You've given me a way to see what love really means  
You and me together in this crazy world

(instrumental)

As I gaze into the future, thoughts of only you and me  
Every moment, one I wouldn't want to miss  
I couldn't ask you for one thing more  
Than you are anytime  
You've given me the world's most perfect kiss

I love you, I need you  
I've never felt like this  
You've given me the world's most perfect kiss
