These long days torment my mind  
Am i blind  
If i miss the worlds affair  
Will i care  
Beyond this world  
The people dance around their king  
Beyond this world  
A light brings life to everything  
I'll keep my eyes on the sky  
Is it nigh  
When he comes to take me back  
Will i pack  
Father keep my chair at the table  
For i'm coming home  
I'm just hitch hiking on this long road  
But i'm getting close  
Beyond this world  
The music plays while angels sing  
Beyond this world  
A feast is now in the making
