"Crack This Code"

Every member here has got the lingo
Every member here is calling bingo
Maybe you'll clue me in
I'm open to suggestions
I came for answers but instead i have more questions
Crack this code so i may see this road that you're
talking about
Crack this code of so i can meet this Lord that i can't
live without
Every member here has got a smile
Every member here is showing style
Whenever hope is born it always ends up dying
My life's a funeral but no one here is crying
