You know we're so alone wherever we go
You know we don't fit in, we'll never fit in
You know we fly at risk, yeah we're flying at risk
Hey, 'cause we're the shit, we're the shit
(We're the shit)

So what if all we do don't make any sense?
You're just so full of it, at least we don't pretend
And if you mess with one, then you're messin' with
three
Oooowee, 'cause we're the shit, we're the shit
(We're the shit)

Now we're on top of our game
We're one in the same
And nothing's ever gonna break up what we found

And I promise we are never going down
We'll never go, we'll never go
We will never go down
We will never go, we'll never go
We will never go down

We're the shit, we're the shit
(Yeah, yeah)
We're the shit, we're the shit

Just like a boom-erang, we'll always come back
So throw your word grenades, we love the attack
And so before you act just consider the fact
Hey, that we're the shit, we're the shit
(We're the shit)

Now we're on top of our game
Yeah, we're one in the same
And nothing's ever gonna break up what we found

And I promise we are never going down
We'll never go, we'll never go
We will never go down
We will never go, we'll never go
We will never go down

Lalala, lalala, lalalalala
Lalala, lalala, lalalalala

There's no excuse for letting it pull you under
(Lalala, lalala, lalalalala)

And I promise we are never going down
We'll never go
(No!)
We will never go down
We will never go, we'll never go
(We'll never go, oh! Oh, oh! We will never go!)
We will never go down

We're the shit, we're the shit
(Yeah, yeah)

We're the shit, we're the shit
(And no one's gonna change ya)

We're the shit, we're the shit
(We're here because we know...)

We're the shit, we're the shit
(Let me scream it with ya)

We're the shit, we're the shit
(Yeah, yeah)

We're the shit, we're the shit

We're the shit, we're the shit
(Yeah, yeah)

We're the shit

And I promise we are never going down
