We're more than friends
We are like lovers
Two souls in one
Forever entwined
I feel with your skin
You live off my heart's beat
Warm me within
While tending my wound

Miles still divide
The distance between us
Keeps growing still
And hope is a lie
And every night
We share the same dream
That's where we hide
You and I

You have always been
Much more than friend to me
And I could never hope
To find another one
Now the time is right
Just tell me what to sacrifice
For you tonight

Wake me
With the sound of your heart's beats in silence
If I'm an offering good enough for you
Or let me slumber deeper and deeper
Forever awaiting for you

Would you hate me
If I crossed that line
From wanting to why
Alone until night
Tell me if I'm alive
Or just breathing
For I cast my shadow
And I'm alone

You have always been much more than a friend to me

You were always so more than a friend should be

Wake me
With the sound of your heartbeats in silence
If I'm an offering good enough for you
Or let me slumber deeper and deeper
Forever awaiting for you
Just call my name and I'll be there
Forever awaiting for you

You have always been much more than a friend to me
You were always so much more than a friend should be

Wake me
With the sound of your heart's beats in silence
If I'm an offering good enough for you
Or let me slumber deeper and deeper
Forever awaiting for you

Wake me
With the sound of your heart's beats in silence
If I'm an offering good enough for you
Just call my name and I'll be there
Forever awaiting for you
