Are we all damned to fight this endless battle  
Choke ourselves over vanity  
Look around and look at what we've all become right  
now  
Obsess yourself in the mirror

Altered dreams, pretend to live it all  
Hide behind this crafted solace  
Their demands comes first above all  
Live this lie, inside you're broken

You'll be judged, criticized from head to toe  
What's inside, in your mind, they'll never know  
Forsaken, heartbroken, you've had it all  
No will to climb again, you take this fall

Your emptiness has consumed your pride  
(You try to be somebody else)  
Temptation has left you in the dark  
(Tread these waters of denial)

Tear down this sheet of reason, you must comply  
It's glowing stars and starlets beneath the sky  
You try to fix yourself

Live their life, you've let their deception cloud your  
judgement  
Now crave your moment of glory  
You try to hide your fractured smiles

You will be forgotten, it makes no difference after  
all(x2)

You'll be judged, criticized from head to toe  
What's inside, in your mind, they'll never know  
Forsaken, heartbroken, you've had it all  
No will to climb again, you take this fall

Your emptiness has consumed your pride  
(You try to be somebody else)  
Temptation has left you in the dark  
(Tread these waters of denial)

Is this what you wanted?  
This endless race for vanity  
Will you find redemption in this stream of hypocrisy?
