Calaisa
"If I Could"

It was too late to try
You gave it up
You said good bye
I was holding your hand
When the doctor said
You just passed away
I can't face the world without you
No matter how I try

I would fly away to the moon and back
Take a train on a one way track
To be close to you, to be close to you
I would bring the sun when the rain falls down
Stop the world from spinning around
To be close to you, to be close to you
I would if I could

Life can be so unfair
But someone bears
Someone else is scared to death
In my heart you will live
Until it's time
To see you again
Can I face the world without you?
I don't know if I can

I would fly away to the moon and back
Take a train on a one way track
To be close to you, to be close to you
I would if I could

Where the ocean meets the sky
That's where I will be
When I spread my wings and fly
Will you wait there for me?

It was too late to try
You gave it up
You said good bye

I would fly away to the moon and back
Take a train on a one way track

To be close to you, to be close to you
I would bring the sun when the rain falls down
Stop the world from spinning around
To be close to you, to be close to you
I would if I could
