Just tell me it's over
Just tell me it's overcast, just tell me it's
overemphasized.
Just tell me it's over
Just tell me it's overdrawn, just tell me I'm over
dramatic.

If heaven sees what the people see,
Heaven hears what the people hear,
Then what is heaven and where is heaven?
Cuz I don't think that it exists...

Just tell me I'm all
Just tell me I'm altruistic, just tell me I'm all grown up.
Just tell me I'm all
Just tell me I'm all alone, just tell me everything's all
right

If heaven sees what the people see,
Heaven hears what the people hear,
Then what is heaven and where is heaven?
Cuz I don't feel like it exists...

Give me a level and I'll move the world
Build a stairway to where the sky unfurls
See the stars as we see the sun
Tear apart all the clouds until the heavens come
undone.

If heaven sees what the people see,
Heaven hears what the people hear,
Can I buy my way into heaven and where is heaven?
Cuz I don't feel like it exists.
