Everywhere, every night, everybody's doing everything  
that I like and I wanna know why.

Somewhere outta here I wanna know. How can I put on,  
on my show?

Lying here still wondering how can I be like  
Cause baby when you're in my game I know what's  
right

I can almost feel it like it's closer than I think  
Going kinda crazy I can almost scream

Distance is the problem, so I put on my best  
Working everyday then I can't take the rest.  
I try, I'll try, I might I'll fight til I see daylight  
I won't stop, won't never drop  
Watch me get up to the top

Round, and Round, here we go again  
But I won't let the haters in  
Circle, Circle on the clock  
Baby don't you let me stop  
Here we go, playback time  
Dare you to handle my crime  
Take it back, rewind the day  
Seems like everything's the same

We're going in a circle, circle  
Baby time to get outta the circle, circle, circle, circle,  
circle  
Circle... Circle  
We're going in a circle, circle  
Baby time to get outta the circle, circle, circle, circle,  
circle  
Circle... Circle

Round and round and round and round  
Pump up all the sound, and sound  
Round and round and round and round  
Pump up all the sound and sound

You can try to warn me but there's no one in the place  
to bore me  
Maybe in another way, you could tell me I should stay

And you've been here before  
Maybe it's untrue, maybe it's dÃ©jÃ  vu

I try I'll try I might I'll fight til I see daylight  
I won't stop won't never drop  
Watch me get up to the top  
I try I'll try I might I'll fight til I see daylight  
I won't stop won't never drop  
Watch me get up to the top

Round, and Round, here we go again  
But I won't let the haters in  
Circle, Circle on the clock  
Baby don't you let me stop

We're going in a circle, circle  
Baby time to get outta the circle, circle, circle, circle,  
circle  
Circle... Circle  
We're going in a circle, circle  
Baby time to get outta the circle, circle, circle, circle,  
circle  
Circle... Circle

Round and round and round and round  
Pump up all the sound, and sound  
Round and round and round and round  
Pump up all the sound and sound

You can watch me boy standing there on the spot  
Make them take them, wanna drop. Watch what I got.  
You can join in to but I must regret saying  
I still feel the same I did and now you'll be pa-paying

We're going in a circle, circle  
Baby time to get outta the circle, circle, circle, circle,  
circle  
Circle... Circle  
We're going in a circle, circle  
Baby time to get outta the circle, circle, circle, circle,  
circle  
Circle... Circle

Round and round and round and round  
Pump up all the sound, and sound  
Round and round and round and round  
Pump up all the sound and sound
