

## Call It A Night "Good Luck California"

Visit "[Good Luck California](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Call it quits on this east coast winter  
look to the west where the sun is never  
painted gray by a sky thats always  
burning blue , clouds hiding the truth  
please dont regret it, this pacific synthetic

Hollywood caught you west coast dreaming  
now C.A. is calling out your  
Hollywood caught you west coast dreaming  
now C.A. is calling out your name

Good luck California  
wave goodbye to those east coast eyes  
good luck California  
wave goodbye

Some say shes just a runway run away  
but its not quite New York , once your gone  
im wishing you the best  
Good luck California  
wave goodbye to those east coast eyes  
good luck California  
wave goodbye

Head for the coast and dont look down  
ill always be your part of town  
its just your time , its just your time  
head for the coast (head for the coast)  
and dont look down (and dont look down)  
head for the coast and dont look down

Dont look. Hollywood caught you west coast dreaming  
now C.A. is calling out your  
Hollywood caught you west coast dreaming  
now C.A. is calling out your name  
your name , Hollywood caught you , wave goodbye
