'Cause you know I like it like that  
And I'll teach you something like that  
And I know you like it like that

You've heard, about my reputation  
Of rumors spread by haters  
Just stories they created

We talk, you always get so nervous  
That what if this gets out  
And everybody knows it

The way you make me feel  
Is it wrong to go along  
Or does it feel right

You can't say this ain't real  
Even though you're still with him  
It's just a matter of time  
And you can quote me when I say

So what if your friends can't keep a secret  
It's alright  
If it gets back to what's his name, I don't mind  
And if it's a problem, he knows where to find me  
If you wanna say something  
And tell his friends I say the same

'Cause you know I like it like that  
And I'll teach you something like that  
And I know you like it like that

You swear, but I know you like the drama  
How everybody's talkin' about you  
Waitin' in the corner

You say, It's such an awful game  
If you can't admit the truth about it  
I'll just take the blame

The way you make me feel  
Is it wrong to go along

Or does it feel right

You can't say this ain't real  
Even though you're still with him  
It's just a matter of time  
And you can quote me when I say

So what if your friends can't keep a secret  
It's alright  
If it gets back to what's his name, I don't mind  
And if it's a problem, he knows where to find me  
If you wanna say something  
And tell his friends I say the same

I'm telling you it's alright  
If he finds out  
I don't mind  
'Cause I got nothing, I got nothing left to lose

I'm telling you it's alright  
If he finds out  
I don't mind  
'Cause I got nothing, I got nothing left to prove

'Cause if it's a problem  
He knows where to find me  
If he wants to say something (something)  
And tell his friends I said the same

So what if your friends can't keep a secret  
It's alright  
If it gets back to what's his name, I don't mind  
And if it's a problem, he knows where to find me  
If you wanna say something  
And tell his friends I say the same

'Cause you know I like it like that  
And I'll teach you something like that  
And I know you like it like that
