How does it feel to be alone?
(I see inside your eyes)
You wanna be here with me and my own
(See inside your eyes)
It's cause a lie, the truth, that's fine, we never know
The truth is what I'm after
And I know the sign I'm searching for won't show
And I sing about what I dream about
And my dream's loving you tonight
And I have no doubt the words that I shout
And scream so loudly late at night

CHORUS:

When I don't take what I can handle
Know I think that you'll be fine
I've never met another lover who would love me the
way that you did
Baby girl, you're different X2

And I have been kicked in the chest
And I know you never cared
Because you're just like all the rest
Baby I sing about what I dream about
And my dream's loving you tonight
And I have no doubt the words that I shout
And scream so loudly late at night
Do you believe all those lies that she told you?
Late at night, when she told you she loved you, she lied

CHORUS

When I don't take what I can handle,
Know I think that you'll be fine
I've never met another lover who would love me the
way that you did
Baby girl, you're different X2

Come on, come on, won't you get close to me
Come on, come on, won't you get close to me
(Why don't you)
Come on, come on, won't you get close to me
(Why don't you)
Come on, come on, won't you get close to me

(Why don't you)
Come on, come on, won't you get close to me
(Why don't you)
Come on, come on, won't you get close to me
(Why don't you)

Interlude

CHORUS:

When I don't take what I can handle
Know I think that you'll be fine
I've never met another lover who would love me the
way that you did
Baby girl, you're different X2
