so you think i'm mad enough for you
so you think i'm great
baby we will keep in touch
be sure it's much too late
be assure we'll be together
until the bitter end

give me your hand
i'll be your friend
until the end
till the bitter end

do you feel the big storm coming now
it's the hand of fate
do you see the big bright future
be sure it's much too late
say goodbye to everything you know
to that old school life
i will be your man forever
and you will be my wife

give me your hand
i'll be your friend
until the end
till the bitter end
