It's getting dark again
And I'm feeling good again
The night it comforts me like wine
And it takes me out again
To look for you my friend
There where the bright big city lights shine

And I wander through the sky
And I hold my head up high
And I meet you round the bend
And that old feeling is back
Breaks my heart and breaks my neck
Don't wanna get it to an end

But the sun goes up again
Don't wanna get it to an end
The night it comforts me like wine
It will take me out again
To look for you my friend
There where the bright big city lights shine
