Running and screaming and tearing the walls.  
Why wont you leave me alone?  
Because this is my fucking home.  
I watch you when you are sleeping.  
This is my fucking home.  
Just show me some attention please.  
Just show me some attention please.  
Just show me some attention please.  
Just show me some attention please.

I'll never sleep alone, I'll be waiting up  
Till dawn.  
I'll never sleep alone, I'll be waiting up  
Till dawn.

Because it's killing me, your fucking, it's killing me.  
I hope this haunts you.  
Because it's killing me, your fucking, it's killing me.  
I hope this haunts you. There is nothing left to prove.  
Alive!

Will sleep again and will not stop, will not.  
Will sleep again and will not stop, will not.  
I hope this haunts you.  
Because it's killing me, your fucking, it's killing me.  
There is nothing left to prove.  
Because it's killing me, your fucking, it's killing me.  
I hope this haunts you.

Just sleep for one day, just sleep for one, day.  
Just sleep for one day, just sleep for one, day.  
Just sleep for one day, just sleep for one, day.  
Just sleep for one day, just sleep for one, day.
