You really want to know?
What should this be, made up
From?
Why couldnt you show me? Because I
Want it.

I wish I was a better person.
Never, never, never, never.
I look at you, but I can't see.
Never, never, never, never,
Never, never, never, never.
Why?

Why can't you fucking see?
Why can't you fucking see?
Why can't you fucking see?
Why can't you fucking see?

Can't figure this out, will it work?
I'll never know how it works, I stand
Alone. Doctor can you help me out? I

Can't get this on my own.

I'll take your hand, show me the way.
Show me the way, we've been made.
I'll take your hand, show me the way.
Show me the way, we've been made.

You really want to know?
What should this be, made
Up from? I'll try and try, but never
Succeed. I'm on my knees, and I
Will plead.

You'll never know, the feelings I have.
You'll never know.

Doctor can you help me out? I can't
Get this on my own.
