Look at this and look at us
We wonder, oh we're wondering
Unlike to say we're lost
Try my best with needing us

Build a ladder to the sky
(To the sky)
Sit up there and say oh my
(Say oh my)
Does looking down make a me a queen
(Make a me a queen)
All the sorrow that I see
(That I see)

If I ever get back down
Find a map that takes me back

Through the wounded, through the wars
To a time that came before

To hover bored into the sun
Come back when my time is done
A mother for this childless world
An arrow of light for every boy and girl

Peace of mind
Peace of mind
Peace of mind
