

Bat For Lashes "Two Planets"

Visit "[Two Planets](#)" on MotoLyrics.com

Show me moonlight on the sunrise
I've seen so many planets dancing
I've seen too many people hiding

Show me sunset and I won't forget
That I am one of two planets dancing
I am part of two planets dancing

Shallow men, sign your name on my sun
The song of Solomon died in a battleground
The song of Solomon died in love's battleground

I am far shattered by these sinning times
For all your suffering by night

???

Life is so much dark and light
Day can not exist without a night
And you should not separate from me
I have a heart that's full of life
To be shared on this night
Feel my hands, feel my life
For the sun and the stars
Of my mother and my sisters

I know where the form is changing
I know that the stars will fall on me (?)
