Electro man, Electronic man  
Electro man, Electronic woman  
I went outside wearing my device  
I came back in wearing the same device, as you

Electro man, Electronic man  
Electro man, Electronic woman  
I went outside wearing my device  
I came back in wearing the same device, as you

You don't believe me, but I would go anywhere with you  
I would go anywhere with you  
Uh uh  
I would go anywhere with you  
I would go anywhere with you

You don't believe me, but I would go anywhere with you

I would go anywhere with you  
Uh uh  
I would go anywhere with you  
I would go anywhere with you

Electro man, Electronic man  
Electro man, Electronic woman  
I went outside wearing my device  
I came back in wearing the same device, as you

Electro man, Electronic man  
Electro man, Electronic woman  
I went outside wearing my device  
I came back in wearing the same device, as you
