(Feat. Craig David)

It is almost six in the morning, yea  
And I'm having so much fun  
The most people's beds would be calling ye yea  
But I ain't tired so if you are feeling sober  
Now is time to change  
Take a mild shot of tequila, yea and you can do the  
same  
But before we go home we call it a day  
Let's choose to fuck  
And start to raise the roof off of this place

Let's see them hands in the air  
I came to have a good time  
Hands in the air (yea)  
I came to have a good time  
Hands in the air (yea)  
I came to have a good time  
Hands in the air (yea)  
I came to have a good time  
Good time good time time time time  
Came to have a good time time with you  
Came to have a good time time time time  
Came to have a good time time with you

Celebrate together, yea  
I want this to last forever  
To me and you!  
Before the night is over, yea  
We must do what we came to do  
So get them hands up in the air like you don't fuckin'  
care  
Some of them might drink it slow  
But I want shots right no no  
And there's only one thing left for me to say  
Let's choose to fuck  
And start to raise the roof off of this place

Let's see them hands in the air  
I came to have a good time

Hands in the air (yea)  
I came to have a good time  
Hands in the air (yea)  
I came to have a good time  
Hands in the air (yea)  
I came to have a good time  
Good time good time time time time  
Came to have a good time time with you  
Came to have a good time time time time  
Came to have a good time time with you

I got that fire fire fire  
Make you burn with the flow  
Cause it makes people higher  
make you wanna have some more  
I got you moving moving moving  
From the table to the wall  
And I know you like a sip of my patrol, my patrol  
Drinking drinking drinking getting higher  
I got hands up in the sky  
We ain't gonna stop, we getting higher  
We're gonna get it to the top  
I got that bass to make you rock  
I got that beat to make you move and make you stop

Let's see them hands in the air  
I came to have a good time  
Hands in the air (yea)  
I came to have a good time  
Hands in the air (yea)  
I came to have a good time  
Hands in the air (yea)  
I came to have a good time  
Good time good time time time time  
Came to have a good time time with you  
Came to have a good time time time time  
Came to have a good time time with you
