Lying in the grass
Watching the stars come out

Come and get the dream
Ghosts right through the cemetery
Feel the morning rain
Dancing 'round the Colosseum

I can not explain
Something in your chemistry
Power to your brain
Power to the mind's museum

Come and get the dream
Ghosts ride through the cemetery
Feel the morning rain
Dancing 'round the Colosseum

I can not explain
Something in your chemistry
Power to your brain

We can watch the stars come out
Find out what we like about
Everyone without a doubt
We can watch the stars come out

We can watch the stars come out
Find out what we like about
Everyone without a doubt
We can watch the stars come out

We can watch the stars come out
Find out what we like about
Everyone without a doubt
We can watch the stars come out

We can watch the stars come out
Find out what we like about
Everyone without a doubt
We can watch the stars come out

Lying in the grass
Watching the stars come out

Come and get the dream
Ghosts ride through the cemetery
Feel the morning rain
Dancing 'round the Colosseum

I can not explain
Something in your chemistry
Power to your brain

We can watch the stars come out
Find out what we like about
Everyone without a doubt
We can watch the stars come out

We can watch the stars come out
Find out what we like about
Everyone without a doubt
We can watch the stars come out

We can watch the stars come out
Find out what we like about
Everyone without a doubt
We can watch the stars come out

We can watch the stars come out
Find out what we like about
Everyone without a doubt
We can watch the stars come out

Lying in the grass
