[Beth Melillo Speaks]

Gun possession is a hazardous war affecting children
in their homes and schools

Eight children a day die from a gunshot wound in the
U.S.

A million violent gun crimes are committed by 18 to 20
year olds

with homicide being the leading cause of death

How is it possible that 200 million guns
are owned in the U.S. with only 80 million legal owners?

Until we do something, guns will continue to flood the
streets

along with the consequences

DipSet, Please

Did you know that a 3 year old has the physical
strength to shoot a gun?
Juvenile gun possession is a problem
If a child obtains an improperly stored gun
the adult owner is criminally liable (Killa)
The restrictions are endless
